

**CITY OF HUNTINGTON BEACH  
PUBLIC WORKS COMMISSION  
REQUEST FOR ACTION**

Item No. 09-08

**SUBMITTED TO:** Chairman McGovern and Members of the Commission  
**SUBMITTED BY:** Travis K. Hopkins, PE, Director of Public Works   
**DATE:** April 15, 2009  
**SUBJECT:** Bayview Drive Water Main Replacement Project (CC-1314)

**Statement of Issue:** Plans and specifications are in final preparation for the Bayview Drive Water Main Replacement Project. Staff is seeking support for the project and the initiation of the competitive bid process.

**Funding Source:** Funds for this project are available in Water Fund Account No. 50691006. The engineer's estimate of construction cost is \$1,600,000.

**Recommended Action:** Motion to recommend the Bayview Drive Water Main Replacement Project to the City Council.

**Alternative Action(s):** Recommend alternative designs or project components.

**Analysis:**

Bayview Drive is located in the County of Orange at Sunset Beach. The City has an agreement with the County to provide water to this location. The existing water main in Bayview Drive is over 40 years old, undersized and has a history of maintenance problems.

The Bayview Drive Water Main Replacement Project proposes to replace approximately 1,400 linear feet of existing 3-inch pipeline with 8-inch pvc pipeline, which is the City's current standard. Permits are being obtained from the County of Orange for work in the right-of-way and Caltrans for the abandonment of a water connection in Pacific Coast Highway.

G-2<sup>1</sup>

Staff will work with the contractor to minimize any inconvenience to the residents, particularly with respect to the parking and access to recreational amenities. As a first step, we expect to begin construction after August 2009. Staff has tentatively scheduled a community outreach meeting in April to discuss the project and listen to the concerns of the residents, including parking and garage access, and how to best accommodate them.

**Environmental Status:** This project consists of rehabilitation of existing City-owned facilities, with little or no negligible expansion of an existing use. The project is therefore categorically exempt from CEQA per Article 19, Section 15301.
